

What is the Roots Crew program?

Roots Crew is a summer leadership development opportunity with Mountain Roots Day Camp. This program is for rising 7th-9th grade students who enjoy being around kids, ages 4-9, and who are excited about exercising their skills as a leader. Roots Crew members get to assist camp counselors with daily tasks AND participate in the camp experience!

What is the role of a Roots Crew Team Member?

- Be at the directive of counselors, ready to assist! This could include...
 - Setting up for activities
 - Breaking down from activities
 - Escorting campers from one location to another
 - Serve as “extra eyes” to help monitor campers
 - Participating in activities with campers on their level
- Maintain attention and exhibit a positive attitude throughout the day
- Be open to a challenge
- Have FUN (it’s summer camp, after all!)
